

PERMISSION FOR STUDENT TO BE PHOTOGRAPHED

Dear Parent/Guardian,

The New LIFE School is currently involved in various graphic art productions centered around the updating of our school we site and the printing of various “school news” periodicals.

Both of these projects involve us using pictures of our students performing a variety of day to day school related activities. These pictures can be seen on the Lutheran Social Services of New York website at www.lssny.org or in their monthly newsletter. Please note that we may also use students’ names on our web site or in our periodicals.

I understand the above statements and approve The New LIFE School to use photographic images of my child in school for the uses described above.
